Team CajunBot

Vehicle Name	CajunBot-II
Photo	Click here
Team E-mail	info@cajunbot.com
Website	http://www.cajunbot.com
Location	Lafayette, LA
Team Description*	Team CajunBot, a team of faculty, students, alumni, and friends of University of Louisiana at Lafayette, is proud to join hands with DARPA in speeding up technology that will save lives of our brave men and women in uniform. Having retired CajunBot, the six-wheeled vehicle that was finalist in the two Grand Challenges, Team CajunBot will bring to the Urban Challenge Ragin'Bot, built on a Jeep Wrangler Rubicon. The multidisciplinary team brings the creativity of several departments at UL Lafayette, including the Center for Advanced Computer Studies, Mechanical Engineering, Electrical and Electronics Engineering, and Arts and Design.

*This information is supplied by the team. DARPA does not verify team descriptions.
